SEASONABLE SPORTS

The Foot Races at Saratoga.

College Boys in their Glory.

The College Regatta—Distributing the Prizes.

SARATOGA, July 15.—At about twelve o'clock last night the winning crews of Cornell were summoned to the ball room of Congress Hall, where an immense throng was gathered, and each crew was presented with a United States flag and a banner, also a banner to the winner of the single scull race, Mr. Kennedy, of Yale. The flags and banners were annual trophies, bestowed by the College Association. In addition to these, an elegant silver cup was presented to each member of the winning crews, and to Mr. Kennedy. The trophies were presented by Hon. Stephen W. Kellogg, of Connecticut. The presentation was accompanied by hearty cheers for the winners. The Cornell boys were also presented with a magnificent boquet, and congratulations were heaped upon them from all sides. Up till late this morning the streets were still lively with marching parties of college boys, venting their enthusiasm in songs and cheers.

The Sports of the Collegians.

SARATOGA, July 15.—The sports of the collegians were resumed this morning. C. M. Barbour, of Amherst, won the one mile run in 4 minutes and 44¼ seconds.

The one mile walk was won by W. A. Platt, of Williams, in 7 minutes and 50 seconds. G. W. Green, of Harvard, led at the finish, but was ruled out on account of a foul.

The seven mile walk was won by W. R. Taylor, M. E. Driscoll, of Williams, second, and Clarence W. Francis, of Columbia, third. Dartmouth fell out three and one-half miles, and Downs before the fourth mile. Taylor's time was 65 minutes and 15¼ seconds, Driscoll 65 minutes and 56 seconds, and Francis 66 minutes and 2 seconds. Driscoll fainted at the end of the race.

The last event was a one-fourth mile race, with six competitors. C. M. Culver, of Union College, won in 55¼ seconds, David Trumbull, of Yale, second, and J. B. Potter, of Cornell, third.

In the afternoon the second part of the programme of athletic sports was performed at Glen Mitchell. The first race, one half mile, contested by David Trumbull, of Yale, and C. H. Barber, of Amherst, was won by Trumbull in 2 minutes 6½ seconds.

The three miles walk was contested by W. A. Platt, of Williams, W. R. Taylor, of Harvard, and A. N. Fairbanks, of Brown. It was won by Taylor in 25 minutes and 23¾ seconds, Fairbank withdrawing on the second mile.

The hundred yard dash between T. H. L. Geyslin, of Union University, Pennsylvania, C. H. Culver, of Union, J. B. Lindley, of Williams, J. B. Potter, of Cornell, and W. C. Hall, of Yale, was won by Potter in 10¾ seconds. Lindley sprained his ankle, but nevertheless crossed the score second.

The entries for the three mile run were H. Rodgers, of Wesleyan, D. C. Morrell, of Amherst, and J. D. Goodwin, of Columbia. Goodwin withdrew on the fifth half mile and Rodgers on the last half mile. Morrell took the race in 17 minutes 7¾ seconds.

The hurdle race, one hundred yards, over ten hurdles, excited the most interest, and was the cause of genuine entertainment for the spectators. The entries were J. W. Prior, of Columbia, Cortes Maxwell, of Yale, W. C. Hall, of Yale, and C. B. King, of Union. The race was won by Maxwell in 19½ seconds. This is one and a fourth seconds better than the same man's time last year, when he was the winner in the hurdle race.

A seven mile walk for past graduates was the last race of the day. It was contested by M. S. McCann, of Harvard, 1874; J. W. Gunster, of Williams, 1874; and J. E. Eustis, of Wesleyan, 1874. It was won by Eustis. Time 69 minutes and 49¾ seconds. Gunster's time was 70 minutes 2 seconds. The last two named contestants were captains of their respective crews in last year's University boat race on Saratoga Lake.

Long Branch Races.

LONG BRANCH, July 15.—The racing at Monmouth Park continued to-day. The first race was the Thespian stakes, dash of three quarters of a mile. Faithless, Freebooter and Dailgaisian started, and in this order they crossed the line. Time 1:17¼.

The West End Hotel stakes, for three year old fillies, distance one mile and three quarters, was won by Ascension in an easy gallop by fully six lengths, Gipsy second, Finework third, Katie Pearce fourth, and Lizzie R. lost almost one-eighth of a mile away. Time 3:11¾.

The third race, for the Grand Jockey Club purse, all ages, two mile heats, was won by Wild Idle, beating Dublin, in 3:40¾ and 3:47¼.

The Long Branch stakes, all ages, one mile and three-quarters, were won by Mate, Galway second, Spinderfield third. Time 3:06¼.

THE BOOK TRADE.

Third Day's Proceedings of the Book Traders' Convention.

NIAGARA FALLS, July 15.—The morning session of the Book Traders' Convention opened with addresses by Messrs. Berry, of Nashville; Sacket Monroe, of Michigan; Shepard, of Kansas City, and others.

The committee of thirty presented the following resolutions, which were adopted:

That article 8th of the Constitution be amended to read: "The Committee on Arbitration shall take cognizance of all complaints of members for alleged infractions of the by-laws and agreements of this Association." They shall endeavor, if possible, to reconcile the parties, and if not successful, may publish, in the official organ of the trade, a complete statement of the case, with their conclusions, and present the same to the Association at its next meeting.

That an underseller in the meaning of this Association is defined to be a dealer, whether a member or not, who in practice violates the by-laws and agreements as to the sale of books, this fact having first been proven to the satisfaction of the Arbitration Committee of this Association.

The report of the committee to amend the resolution on the twenty per cent. rule was presented, and will be discussed this afternoon.

At the afternoon session the following resolution was adopted:

That the American Book Trade Association pledges itself to maintain, and urges upon the entire trade the absolute necessity of maintaining, publishers' advertised retail prices in all sales to buyers outside of the trade, excepting that a reduction not to exceed ten per cent. on intermediate, and twenty per cent. in all other classes of books, including educational, may be allowed to the following classes: Public libraries, including circulating and Sunday school; clergymen and professional teachers; professional books to professional buyers; large buyers, said purchasers buying wholly for their own use, and in case of exceptions made by the Publishers' Board of Trade. In case the rules of this Association should under exceptional circumstances work injustice to any dealer in competition with other parties, said dealer may state his case to the Arbitration Committee, and this committee shall have power to authorize him to take such measures as will meet the emergency, after notice has been given, and like liberty granted to other dealers directly concerned.

Resolutions were also passed that the Executive Committee be directed to print in the manual of the Association the report of the Committee on the Twenty Per Cent. Rule, and announce that it would take effect on the 1st of August next.

Franklin Telegraph Company.

BOSTON July 15.—An adjourned meeting of the Franklin Telegraph Company was held to-day. Alfred Nelson, of New York, presided, and stated that a statement of the company's finances could not be presented, as it was not ready. The following ticket of the New York party was elected: Sidney Dillon, Jay Gould, W. J. Syms, Jno. H. Mortimer, Thos. T. Eckert, Henry M. Taber, Fred. L. A. Ames, E. T. Atkins and E. H. Rollins—Messrs. Dillon & Eckert getting 7,833, being all the votes cast, and the others 5,544 each. Nelson was re-elected Treasurer. A preamble reciting that the A. & P. Telegraph Company fraudulently assumed control of the Franklin line, decreased its rates and injured its business by gross mismanagement, and a resolution directing the directors to bring an action in behalf of the company in law or in equity against the A. & P. Telegraph Company, were lost by a vote of 5,446 to 2,398.

Escape of Ten Notorious Horse Thieves.

ST. LOUIS, July 15.—The *Republican's* Wichita (Kansas) special says the jail of that place, in which were ten of the most notorious horse thieves of Southern Kansas, was broken open by the prisoners last night, and all escaped. Wallace Bennett, the last of a gang brought from the Cheyenne agency by United States Marshal Lefeboro three weeks ago, is among them. They are all splendidly armed, having been assisted by friends after their escape. The officers are in pursuit, and it is believed a terrible fight will occur when they overtake them, which will be within twenty-four hours.

FROM WASHINGTON.

Favorable Reports of the Cotton Crop.

Dishonest Letter Carriers.

WASHINGTON, July 15, 1875.

The Funds in the Reserve Vaults Counted.

The counting of the funds in the reserve vaults of the Treasury has been completed, and everything found correct. The committee is counting bonds, deposited by National banks as securities for circulation and public deposits, and will report the result Tuesday next.

Dishonest Letter Carriers.

Since last December eight of the letter carriers of the Washington City postoffice have been detected tampering with and abstracting money from letters. They were promptly dismissed, one of them to-day. These cases were referred to District Attorney Fisher, but no indictment was found by the Grand Jury in any case. This fact led to a complaint against Fisher by the Postmaster General and Secretaries Belknap and Bristow. It is said they also found fault with the loose administration of his office, in consequence of which his resignation has been requested.

The Cotton Crop.

July returns to the Department of Agriculture were unusually full, showing an improvement of the cotton crop during June in all the cotton States except Texas. State averages are as follows: North Carolina, 95, an improvement of 3 per cent.; South Carolina, 99, improved 2; Georgia, 97, improved 6; Florida, 101, improved 7; Alabama, 102, improved 1; Mississippi, 103, improved 3; Louisiana, 105, improved 10; Texas, 93, declined 3; Arkansas, 104, improved 14; Tennessee, 109, improved 10.

A Vacant Office.

The names of several prominent gentlemen have been presented for the vacant post of Minister to Brussels, but there is reason to believe that Gen. Badeau, now Consul General at London, will be the successor of J. Russell Jones.

A ROBBER ARRESTED.

$20,000 Worth of Stolen Articles Recovered.

CINCINNATI, O., July 15.—The *Enquirer's* Canton (O.) special says Jerome Markell has been arrested there on suspicion of having, with accomplices, committed the most extensive robberies that have ever occurred. The property stolen consists of nearly fourteen thousand dollars in mortgage notes, three hundred dollars worth of silver ware, gold and silver watches, and other articles, of the total value of about $20,000, which was owned by Mrs. Catherine Meyer. The first intimation the lady had of her loss was the receipt of a letter asking how much she would give to recover her property. The matter was at once put into the hands of the police, who arrested Markell, and were shown by him where the valuables were buried. All were recovered except one watch and some minor articles of jewelry. Markell, in default of bail, was committed for trial. It is thought he will implicate others in the robbery.

An Extensive Defalcation.

LOUISVILLE, KY., July 15.—Information was received at a late hour to-night of an extensive defalcation in the office of the United States Revenue Collector for this District. George N. Jackson, Deputy Collector and Cashier for Collector Buckner, was discovered this afternoon to be forty-five thousand dollars short in his accounts. A warrant was issued to-night for his arrest, but upon reaching his house the Deputy Marshal was met by a physician, who refused to allow Jackson to be removed, saying he could not live till morning. It is suspected that Jackson took arsenic. He has hitherto been regarded as scrupulously honest and upright.

INDUSTRIAL NOTES.

[From the American Manufacturer.]

CARNEGIE Brothers & Co., are putting two additional puddling furnaces in their works, (Union Iron Mills).

HUSSEY, BINNS & CO. are erecting a 24-pot Siemens furnace at their shovel works. This will add greatly to their facilities for making shovels.

MESSRS. Shoenberger & Co. and Zug & Co. consume nearly the whole product of the nail keg department of the Pittsburgh Saw Mills, which produce about 1,000 kegs per day on an average.

THE workmen employed at the lead keg factory of Messrs. M. T. & S. Kennedy, of Fallston, went out on a strike Monday, leaving but enough force to run the works on a small scale. The company reduced the wages of the employes from ten to fifteen per cent., hence the strike.

A LARGE force of workmen, in the employ of the Keystone Iron Bridge Company, of Pittsburgh, arrived in Allentown yesterday. The men came here for the purpose of erecting a bridge over the canal at Wheeler's lock, on the L. & S. Railroad, and as soon as possible the work will be commenced and finished.

T. B. WHITE & Son, of New Brighton, have the contract for the superstructure of the new bridge to be built over Chartier's creek, on the Steubenville pike. It is to be a wrought iron truss bridge, with a clear span of 30 feet. The contractors are to get $130 per linear foot. The masonry will be done by John Mackin, at $4,74 per perch.

THERE were sawed and shipped from the Pittsburgh Saw Mills, in the months of May and June past, over 1,000,000 feet of lumber. In the month of June these mills furnished the lumber for rebuilding the Blake Steel Shovel Works, shipped thirty-two car loads to the West, supplying the city demand, which kept four teams constantly running; and they are furnishing the lumber for the Edgar Thomson Steel Works and other large works.

THE Wheeling *Intelligencer* says: "The strikes with which this community was afflicted last spring interfered to a considerable extent with the products of our mills. Notwithstanding the fact that the feeders were out about four weeks, the nail factories have a very good showing for the first six months of the year 1875. The Top Mill, with 110 machines, cut 106,000 kegs of nails; the Riverside mill, with 136 machines, cut 134,695 kegs; the Belmont mill, with 110 machines, cut 104,000 kegs; the La Belle mill, with 84 machines, cut 95,650 kegs; the Benwood mill, with 110 machines, cut 102,000 kegs. This is hardly a fair estimate of what each factory can do, as there was a large difference in the number of machines in operation in the mills during the strike. For instance, of the 136 machines at the Riverside mill, only 50 were running during the strike. This factory would have turned out at least 32,000 kegs more had it not been for the strike and the burning of the new factory."

The Keystone Pipe Company.

A number of prominent refiners of Pittsburgh and producers of the Butler oil fields, met in Butler a few days ago, and organized a new pipe company, under the name of the Keystone Pipe Company, for the purpose of laying a pipe line from Millerstown, in Butler county, to Freeport on the Allegheny river. The following officers were elected: President, Joseph Overy; Secretary, H. F. O'Neil; Treasurer, J. T. Stockdale; Directors, Joseph Overy, H. F. O'Neil, J. T. Stockdale, Henry Holdship, George Howe, J. A. Fleming and David Kirk.

A contract was made with Messrs. Kirk & Dilworth to construct, equip and put the line in operation, on or before the first day of September.

By the bursting of the Monmouthshire reservoir a factory and a number of dwellings were entirely destroyed. The river Ebbro has overflowed. Boats are plying in the main streets of the town of Monmouth.

Similar reports of inundations come from Ross, Hereford and Caerleon. Fears are entertained for the safety of the foundations of the Ross, Monmouth and Wyenalley Railroad. The water is still rising. The river from Ebbro has risen nine feet above the ordinary level, and the lower portions of Bristol are flooded. Thousands of acres lying between Ebbro and Severn are under water.

FRANCE.

Assembly Proceedings.

PARIS, July 15.—In the Assembly to-day M. Savary delivered a speech, in which he dwelt upon the necessity of arresting the progress of Bonapartism, and attacked M. Rouher, whom he styled the abettor of a *coup d'etat.*

M. Buffet defended the Prefect of Police from the attacks made upon him yesterday by M. Rouher, and said the Prefect was perfectly right in pointing out the double danger by which the country was threatened by both revolutionists and Bonapartists. The danger from the former was more serious, and the Government would keep a watchful eye upon them.

The Bonapartists and members of the Right cheered this statement, while the Left protested against it.

M. Dufaure said the Government would display vigilance in regard to the Bonapartists. He would not remain a member of any Government which neglected that duty.

M. Gambetta called attention to the divergence in the statements of the two Ministers, and with much warmth accused the Government of supporting Bonapartists, maintaining Bonapartist functionaries in office, and following in the steps of the Broglie administration.

M. Buffet asserted that a perfect agreement prevailed in the Cabinet, especially between M. Dufaure and himself. He considered that he was rendering a great service to the country by maintaining old functionaries who were loyal, although they had served under the Empire.

The Left violently protested against these remarks of M. Buffet, while the Right and Bonapartists loudly cheered.

After further animated debate a resolution was passed by a vote of 483 to 3, stating that the Assembly, confiding in the Government's declarations, passes to the order of the day.

The Bonapartists, who had agreed to support the motion, were well satisfied with the result. The Left, who abstained from voting, were proportionately displeased.

M. Dufaure affirmed that there was no divergence between the Ministers. The Government had nothing to add to or withdraw from the declarations it had already made.

LONDON, July 19.—The Paris correspondent of the *Times* summarizes the result of yesterday's debate in the Assembly as follows: The Government, separated from the Left, is thrown back on the Right. The difficulty arising is: How can the Government remain in power, supported by a majority which is opposed to Constitutional bills? As it cannot be supposed the Government will resign without completing its constitutional work, will it rely upon the majority last night or upon that from which it has violently separated itself? The coming sittings must solve this problem. Meanwhile the victory belongs to the Bonapartists.

"UP FOR NINETY DAYS."

James T. Sample, the Opponent of Sunday Trains and Papers, Incarcerated in Prison—Wouldn't pay Costs in a Liquor Suit—What he Thinks of it.

James T. Sample, who has recently acquired so much notoriety in connection with the prosecution of a number of newsboys for selling papers on Sunday, and engineers for running trains on the Sabbath, was yesterday committed to jail on a process issued by the Court for failing to pay the costs in a liquor case which the Grand Jury ignored and threw the expense on him. He was arrested at the Temperance Convention by officer Fred. Fallbush and the incident created quite a flutter of excitement among the ladies assembled there. One of our reporters was sauntering along Sixth street about three o'clock in the afternoon with two good items in prospect, representing the horns of a dilemma, mentally weighing the relative value of each and endeavoring to arrive at a conclusion as to which horn would be the best to grasp, when his reverie was interrupted by a familiar voice calling him by name. Turning round he was brought face to face with Sample.

"Good bye," said Sample, extending his hand.

"Whither bound," interrogated the scribe, thinking him on the way to enjoy a season at the sea-side.

"I'm going up for ninety days," was the reply, half exultant in its character. "Going up for ninety days" certainly sounded very familiar, but having no idea that Mr. Sample was under arrest, the reporter was still at a loss to comprehend the somewhat enigmatical response.

"Going up for ninety days? Up where? Not in a balloon, I trust?" was the query again propounded.

"Up to jail," said S.

"Well, what are you going to jail for?" and the stern features of officer Fallbush began to relax and a smile commenced to play over them as he noted the mixed earnestness and carelessness manifested in Mr. Sample's conversation.

"You see," said the prisoner, "the Grand Jury ignored an indictment in a liquor suit in which I was the prosecutor, and as I have declined to pay the costs, I must go to jail. I am good for ninety days, and I propose to serve them every one."

"Why don't you pay the costs and secure your freedom?"

"Principle, sir, principle. I won't do it. I was arrested in the Temperance Alliance rooms. Go down and get the resolutions they passed about me. Good bye. Send me plenty of reporters' paper, as I will want to do some writing, and don't forget to furnish me with the morning papers. Good bye."

And off he moved, arm in arm with the officer, as talkative and friendly as could be, and apparently much more elated than depressed over his arrest.

HIGHWAY ROBBERY.

A Man Choked, Gagged and Robbed of $5,000 Within Ten Miles of Steubenville—The Parties Who Committed the Outrage Still at Large.

Mr. S. S. Bellows, a wool dealer for New York, and who is purchasing agent for the manufacturing firm of Slater's Sons, Webster, Mass., was robbed of $5,000 last week, according to reports. He had drawn the money at Cadiz, Ohio, where he had his headquarters, and started on the train to New Alexandria to pay for some wool. He got off at New Alexandria Roads station and started up the hill toward the town, which is about a mile from the station. He says he had got probably half way when, just as he was passing a large oak tree by the road side, two men jumped out from behind it and grasped him, one on each side, and hurried him off the road and down in a deep hollow, put a rope around his neck, all the while indicating by the pressing of two ugly looking revolvers, which they displayed, that they were terribly in earnest. The victim of all this attention came to the conclusion that all was up with him, and gave expression to his fear by a sharp cry, which, however, was effectually stopped by means of a large, red handkerchief being thrust in his mouth. They then proceeded to search his pockets for the key to his valise, which in the meantime they had taken possession of, but at first not succeeding in finding the key, one of them suggested that they cut the valise open, to which, however, his partner objected, and ere long produced the key, with which they opened the valise, took out the money inclosed, amounting to $5,000 locked the valise again and restored it and the key to Mr. Bellows, after carefully stowing the money away on their own persons. They then searched him farther, taking his pocket book, which contained $25.00, but gave it back again by reason of the small amount therein. They overlooked $500, however, which was stowed away in the pistol pocket of his pants. After they had committed the robbery they remained in the hollow with Mr. Bellows about an hour and a half as he thinks, during which time they threatened him with death at every motion, and finally left him, going in the direction of the station, about the time that the west-bound train (No. 2) was due at Alexandria Roads telling him that if he made any noise or moved while they were in hearing or seeing distance it would not be well for him. He waited until they got out of sight, and then made the best of his way to his friends in New Alexandria, where he arrived in a very demoralized condition. He says that the men were large—he being quite a small man—and were also armed with revolvers, which made very heavy odds against him. They had on false whiskers, as he noticed the strings by which they were fastened. They told him that they had spotted him more than a week before, and had been following him up ever since. There is no clue to the robbers.

The Rev. G. W. Cranage, a prominent Methodist clergyman, thus relates his experience:

PITTSBURGH, PA., September 8, 1873.

I had been suffering from Dysentery nearly all summer, and it seemed impossible to get any permanent relief, although I had been under the care of several eminent physicians. At the urgent solicitation of a friend, I was finally induced to try DR. HARRIS' SUMMER CORDIAL, but confess that I had but little faith in such a simple remedy, as I supposed it was intended more especially for children. To my surprise, the first dose gave immediate relief, and less than a bottle of the Cordial affected a permanent cure. *It is impossible to express my full appreciation of so valuable a medicine.*

WOOL.

Discussing the Situation—Some Plan of Action to be Decided Upon.

On Saturday, July 3d, a meeting of wool growers of Ohio and adjoining counties, was held at the residence of Hon. John Faris, near West Liberty. P. Whitman, Esq., was called to the chair and J. A. Curtis was appointed Secretary. Mr. Faris in stating the object of the meeting remarked that it was well understood that the wool dealers here, in corresponding with the Eastern manufacturers (or their agents) were urging a hold off policy, advising them not to send out buyers, and representing that by waiting they would get wool at their own prices.

Present figures for wool are not remunerative; in fact, as prices now go, both sheep and fleece would not pay for the food consumed, saying nothing about the capital invested and the labor spent. The meeting was, therefore, called for consultation with a view of adopting some course of action by the wool growers.

A committee having been appointed, reported the following preamble and resolutions, which were adopted:

WHEREAS, We think that the difference between the price paid to the wool grower and the prices paid by the consumer for the manufactured article is too great; we would therefore resolve:

1st. That we hold our wool for an advance on prices now offered, and ask the co-operation of others to the same end, and request the correspondence of wool growers from different sections of the country upon this subject.

2d. That in our opinion a self-protecting association would accomplish much for this and adjoining State in producing harmony of interest between the manufacturer and the wool grower.

3d. That from our present knowledge and information we would recommend the organization known as the Patrons of Husbandry, to the wool growers for their support, as offering facilities for protection against those combinations which, both in the purchase and the carrying between the grower and the consumer, do great injustice to both.

4th. That when we adjourn, we adjourn to meet on the second Saturday of August, with a view of taking measures to deal direct with the manufacturers to manufacture our own stock and in the meantime we invite correspondence to that end.

5th. Failing in this, we will be compelled to abandon the wool growing business, which has heretofore been a great source of wealth to this section of country. And in imitation of our fathers ninety-nine years ago, declare our independence of those who are living from the handling of our produce.

6th. That we invite discussion with the wool dealers for the purpose of producing fair dealing, and consequently harmony.

Remarks were made to the effect that formerly the wools of Ohio county and adjoining counties of this State, (W. Va.,) and Ohio and Pennsylvania commanded the highest market price, but wool buyers who are buying the inferior clips, and forwarding it on as West Virginia and Pennsylvania wools, have deteriorated the reputation of our wool, and as they would pay no higher price for a clip got up in good order than for dirty wool, it has left no incentive to put wool in good order, and has had a further tendency to demoralize the wool business, both with the grower and manufacturer.

The attention of manufacturers was called to these facts, and correspondence as suggested in the resolutions was requested from them.

It was also remarked that did we manufacture our wools at home it would save the cost of carriage, as well as bring labor to us, thus increasing our population, and consequently our wealth.

After some further remarks, the meeting adjourned to meet August 14, 1875, at 2 P. M., at the house of John Faris. All wool growers are invited to attend.

ACCIDENTAL DROWNING.

The Body of a Colored Man Taken From the Monongahela River.

Yesterday about one o'clock the dead body of a colored man named David Stevenson, was taken from the Monongahela river at the foot of Market street, in this city. The Coroner was notified who had the remains conveyed to Williams' undertaking rooms on Fifth avenue. In the evening an inquest was held, when the following facts were elicited from the witnesses: It appears that the deceased came to Pittsburgh a few days ago, on the steamer "Exchange" from Cincinnati, where he was employed as a deck hand. He has since been taking his meals at 104 Water street, with Mrs. Shamp who states that he took supper there on Tuesday evening, and afterwards went down to work on the steamer "Ashland," which arrived here at half past nine o'clock Tuesday night. A number of men who were over on board the boat, stated that he was missing about ten o'clock on Tuesday night, and the general supposition was that he had fallen overboard. From the evidence offered the jury were of the opinion that the deceased was intoxicated at the time he fell into the river. After examining a number of witnesses a verdict of "death from drowning" was rendered. There was a report that a piece of metal was found tied to the body of Stevenson, but it seems that Captain John Gilmore, of the steamer James Gilmore, who had dropped a watch in the river, had marked the place with a buoy, and that the body had drifted against the line. This matter was made very clear before the Coroner's jury, as witnesses testified who were well acquainted with all the facts. The deceased was about forty years of age, and is supposed to hail from Richmond, Va. Report says he has a wife and small family residing in that place. His body will be buried at the expense of the county unless claimed to-day.

ALLEGHENY FIRE DEPARTMENT.

The Inspection Yesterday—The Display Very Satisfactory.

Notwithstanding the disagreeable weather yesterday afternoon, the Allegheny Fire Department turned out for their annual review by the City Councils and the citizens. At four o'clock the different companies received the signal to leave their respective houses, and within twenty minutes all the engines and hose carriages, and the hook and ladder truck, were filed along Montgomery avenue, west of Federal street. As the different companies arrived they were met by the Allegheny City Cornet Band, and accompanied down to their position in the line. The Mayor and councilmen and Chief Crow then marched past the department, and examined the horses and apparatus. The rain by this time was coming down quite heavily, but a crowd of probably a thousand or more persons collected there to see the review. The fine appearance of the tmen, the men, as well as the rest of the department, was highly complimented by the citizens and councilmen. The department then, headed by their band, which had been engaged at the expense of the members of the department, marched to Sandusky street and up that street to North avenue, and hence along to Federal street and down that street to City Hall, where they were dismissed. The department now consists of 6 fire engines, 9 hose carriages, 1 hook and ladder truck and 53 men. The inspection was in every way satisfactory, and called forth commendation from all who saw the splendid condition of the men and apparatus.

IN DANGER OF DEATH.

Chief Engineer Hamill Not Expected to Live.

Johnny Hamill, Chief Engineer of the Fire Department, is dangerously ill, and at this writing his death is hourly expected, though it is sincerely hoped by all who know of his condition that he will recover. It will be remembered that on Tuesday afternoon while at the Point fire, Mr. Hamill was suddenly overcome by the heat and compelled to take to his bed. He continued to improve until yesterday morning when he thought himself so much better that he determined to go to a barber shop and get shaved. The operation concluded, he returned to his house, and after resting for a little while, expressed his intention of going over to Duquesne engine house. He had not more than reached the middle of the little yard in front of his residence, on Second avenue, than he fell to the ground in convulsions. He was picked up and carried in the house, and Drs. Le. Moyne and King summond. He remained unconscious until about six o'clock last evening, when he rallied considerably, but soon after he had another relapse and throughout the entire night continued to grow worse. This morning he is still insensible, and the watchers at his bedside have almost lost hope of his recovery. It was thought he would not live until midnight.

ANOTHER HEAVY RAIN.

The Trains Again Delayed on the P. R. R.—The Youghiogheny Overflowed—Considable Damage Done.

Last evening about six o'clock Turtle Creek station, on the Pennsylvania Railroad, was visited by a heavy rain storm. At the time named the clouds made their appearance, and shortly after the rain began to descend in torrents. The most singular feature of the whole affair was no thunder or lightning, as is usually the case during such a storm. The rain continued to fall for about three quarters of an hour and the water began to run with such force that it washed away a portion of the track of the P. R. R. so that trains could not run. The Youghiogheny river overflowed its banks and garden and coal tipples near by were greatly damaged. Although the rain continued for less than an hour, the loss will reach a considerable amount, but how much, could not be learned by our reporter last night. As soon as the water had subsided, workmen were put to work to relay the railroad track which had been washed away. The trains were delayed but a few hours.

ALLEGHENY STREETS.

Butchers and Woods Run Sewers Before the Street Committee.

A regular meeting of the Street Committee of Allegheny Councils was held last evening, Mr. W. W. Ackley presiding.

On motion, the contractor who is improving Buchanan street was directed to build retaining walls where necessary for the protection of that street, the cost of the same to be assessed with the cost of the improvements.

Messrs. Heagy, Bedell and Golden were appointed a sub-committee to examine as to the necessity of a sewer on James street. The committee was also directed to examine into the complaints of different parties that the water from Howard street ran down over their property and did considerable damage.

The Street Commissioner was authorized to have a box sewer placed across West End avenue above the toll gate.

Messrs. Cochran, Hartman and Golden, in connection with the Chairman and the City Engineer, were appointed a sub-committee to confer with a committee from the Managers of the Uniondale Cemetery in regard to the straightening of the lines of different streets in the vicinity of the Cemetery grounds. The committee was also directed to confer with them in regard to the opening of Strawberry Lane.

An ordinance was ordered to be prepared for the extension of the main sewer on Federal street from its present terminus to Samson street.

The Street Commissioner was directed to take some measure to protect the property at the head of Boyle street from damage from water coming from Fountain street.

The contractor was directed to build a stone wall seventy-five feet long at the green-house of Elliott & Co. on Charles street. The committee deemed it more advisable to build this wall than to pay nearly twice the cost of this wall for the removal of the green-house.

The plan for the construction of a main sewer on McClure avenue, from Wilson's store to Peyton's corner, submitted at the last meeting of Councils, was taken up. The plan was approved and it was agreed to report an ordinance to Councils authorizing the construction of a sewer according to the plan, and also an ordinance authorizing the issuing of $10,000 worth of sewer bonds to pay the city's portion of the cost of the sewer.

Mr. Golden desired to know of the City Solicitor if bonds could be filed by the contractor and the work of completing the Butcher Run sewer be continued at once.

Mr. Rodgers, City Solicitor, said that they could not, as the bond must be filed in the name of the city, and must be signed by several private parties; but if the contractor could enter into any kind of arrangement with the Plank Road Company, he could go ahead with the work.

Mr. Golden said that the contractor was anxious to go on with the work at once, and would be willing to file his own bond.

On motion of Mr. Golden the contractor was referred to the City Solicitor for instructions in regard the matter.

The Street Commissioner was directed to make some arrangements to protect the new school house in the Second ward from the water from Buena Vista street running down into the school house.

It was reported that certain parties who make repairs on the public sewers some times, when work is short, tear down more of the sewers than there is any need of, to make work.

City Engineer Davis said that sewer drops should not be in need of repairs if they were properly constructed.

A resolution was adopted directing the Engineer in charge of sewers to examine the cement used in the construction of sewer drops more carefully, and all repairs shall be made under his direction.

A GOOD MAN.

Tribute to the Memory of the Late Charles A. Wood.

A correspondent writing from Wheatland, Pa., to the Sharpsville *Advertiser*, mentions the fact of the death of the late Charles A. Wood, of Pittsburgh, and says: "The former employes and friends of the deceased, met in the basement of the M. E. church to give an expression of their respect and their sympathy to the family of Mr. Wood. W. B. Maxwell, Esq., presided, and W. J. Maginn was elected Secretary. Expressions of profound sympathy and deep respect were made, and a committee appointed to prepare and read resolutions before the congregation of the M. E. church, giving the opinion of the people. The church was ordered to be draped in mourning for the space of thirty days, and all respect that was possible was shown for the dead. And the dead done deeds while living which entitled his memory to all manner of respect which any person who ever was connected with him in any manner could show."

Mr. Wood, during his lifetime, was a good employer, gave his men good wages, kept them in steady employment, built good, commodious dwellings, and gave them to his men at a small rental. He was more like an elder brother than a master to his men. When they or their families were sick his heart opened to them in sympathy, and his purse was always ready to help them through their difficulties. In short, his conduct to them was always up to the square of a Christian and a gentleman. He and his family built and fitted up a church from foundation to weather vane, a splendid chandelier, a Sunday School library, and everything complete, and gave it in fee simple to the Methodists. He also gave a lot to the Roman Catholics and to Welsh societies for church buildings; and, in fact, almost made a city out of a swamp. The firm expended nearly a million of dollars in buildings alone, and towards the close of their career here their monthly pay rolls were from $40,000 to $70,000 a month. The good deeds of Mr. Wood should not be interred with his bones; they should live after him and write a cenotaph in the heart of every laboring man in the valley, which would outlive monuments of marble and brass.

"When wealth to virtuous hands is given
It blesses like the dews of Heaven."

"Nothing that I can write would do half justice to his munificence and liberality. He is gone and we mourn him. That is all that can be said."

HEADQUARTERS ALLEGHENY COUNTY PROHIBITION EXECUTIVE COMMITTEE,
COR. PENN AVENUE AND SIXTH STREET,
PITTSBURGH, July 6th, 1875.

Dear Friends—Again you are called upon to rally for the right. The Executive Committee of the

Prohibition Party!

request that every true friend of the cause throughout the county assemble at their respective voting places on

SATURDAY, AUGUST 7th,

FROM

FOUR TO SIX O'CLOCK P. M.,

or, where preferred, to call a public Ward, Borough or Township meeting, and elect from each precinct four Delegates to represent their district in the Nominating Convention, to be held on

Monday, August 9,

At 10 O'clock A. M.

The women, being deeply interested in our success, will be admitted as delegates, and two men and two women will compose the delegation from each election precinct of the county. It is hoped that every praying mother, who sees the snares and traps set for her son's destruction, and who regards her daughter's welfare, will assist in having every precinct represented. Only those who present proper credentials will be entitled to seats in the Convention.

The Delegates will convene at Lafayette Hall, Wood street, below Fourth avenue, and nominate candidates for the various county offices to be filled at the ensuing November election.

A mass meeting will be held in the evening, and will be addressed by our candidate for Governor, Hon. ROBERT AUDLEY BROWNE, and others.

A meeting of the County Executive Committee is held at Headquarters every MONDAY, at 11 o'clock, A. M., which you are requested to attend.

Relying upon the power of the Holy Spirit to convince our people of their duty to use the ballot for the suppression of the dram-shop curse, which is an abomination in the sight of the Lord and all good citizens, causing corruption, crime, suffering, waste and want greater than all other agencies of Satan combined. Who can estimate the sin and misery caused by the $152,000,000 spent for intoxicating liquors in this State during the last year, and the rich blessings it might have secured?

"Ask and ye shall receive," is the precious promise. Then let us unite in a petition for just what we need, and for nothing less than a Gideon's victory by "the sword of the Lord" and the ballot. A prompt, united and prayerful effort will save a long conflict and thousands of precious lives.

Trusting that your love for Christ and humanity will lead you to respond to this call, we earnestly entreat you to see that a full delegation attend the Convention from your district.

By order of the Executive Committee.

THE Prohibition candidate for Governor, Rev. Browne, has taken the stump, and promises to make a vigorous contest this Fall. He spoke before the Mercer county Prohibition Convention.

A CORRESPONDENT of the New York *Times* writes from Indianapolis, that if the choice lies between Morton and Hendricks for President, Indiana will give the former 25,000 majority. So will Pennsylvania.

FROM 1859 to 1873 the foreign commerce of the United States more than doubled, the aggregate of imports and exports of the former year being $625,557,592, and of the latter, $1,327,489,612. It is a mistake, therefore, to say that our commerce is falling off. It now equals that of France and Germany, but is yet far below England.

THE flood in the lower Ohio increases. Below Kanawha and Big Sandy the rise has been rapid, wholly unlooked for, and has caused much damage. At Huntingdon the river rose fifteen feet in one night, and the Big Sandy, in one afternoon, rose to flood height. The recent rains have not as yet affected the rivers here.

COMPLAINT is made by counsel that the present suits against Tweed and the ring thieves are instituted by malice, and offer this as a reason why the cases should be discontinued. This is about as cool a piece of special pleading as we ever heard of, and if it should prevail, every prisoner might set up the same preposterous claim.

THE *Post* is weary of hearing what it calls "the Andersonville and Libby prison clap-trap war cries," and not much wonder. They bring up associations and memories of the past which are far from agreeable reflections for our neighbor. We hope our Republican cotemporaries will avoid mentioning all such matters, out of respect for the nervous gentlemen of the *Post*.

SIXTEEN MILLS on the dollar, not inclusive of school tax levy, is what the Democracy in Cincinnati require to run that city with. This, too, is on an increased valuation lately made. Compare that with your tax receipts here, and the difference between Republican and Democratic rule may be ascertained. The taxes there are nearly double what ours are.

FRED. DOUGLASS, and some of the more influential colored men of Washington, are taking steps toward starting in that city a weekly paper devoted mainly to the interests of the colored people. Mr. Douglass is no tyro at journalism; he is a brilliant writer, and we may expect an interesting and wide-awake journal so long as its conduct it left in his hands. We shall welcome him back into the field of journalism.

RUFFIANISM has taken a new form in New York. On the plea of wishing to examine the water pipes, a thief gained admittance to a dwelling house, in broad daylight, and after getting in, coolly proceeded to choke the lady inmate, until she was almost lifeless, and rob the house of its valuables. No clue has been obtained to his whereabouts. This may turn out to be a valuable lesson, if rightly heeded.

HAVING given the substance of the charges made by Prof. Marsh against the Interior Department and its mode of transacting business, it is but just to state that every opportunity has been given, and is still offered the Professor for a detailed relation of any specific charges of fraud by the Indian Agencies, with a promise that whatever the most rigid scrutiny shall develop as irregular or fraudulent or unjust to the Indians, shall be promptly corrected and the guilty punished.

GOVERNOR TILDEN's visit to Long Branch has apparently been the means of stopping the mouths of the small fellows on the New York Democratic press, who annually regale their readers with vile charges of neglect of duty on the part of the President. The Albany *Evening Journal* charges that the editor of the *World* was closing a brilliant leader on President Grant at Long Branch, when he heard that Tilden had just departed for that retreat. The article did not appear. The style of partisan clamor answers no purpose, except to afford dull writers a threadbare theme for Summer work.

THE English system of compartment passenger cars is still in use, notwithstanding the frequent cases of assault, robbery and other crimes, including that of murder, they give opportunity for. Locking up passengers together in a select box, may possibly rid the occupants of the vulgar jests so common to a mixed crowd of uncultivated passengers, but it often subjects the inmates to the most unpleasant society and causes frequently indecent assaults. Such an occurrence is just related, where a Miss Kate Dickinson was locked in a compartment with a Colonel Baker, and only escaped his insults by jumping from the car window, where clinging to the outside of the car, she remained hanging for a long time, until rescued.

THE terrible calamity which visited this section last year, through the sudden flood of water in the valleys surrounding these cities, came near being repeated night before last. This fact admonishes us of the danger that threatens in this direction, and calls upon our authorities to take early steps to prevent, so far as possible, the occurrence of last year's disaster. Properly arranged sewers of ample size, and a few changes in the profiles and angles of the streets in the Butchers' Run and Spring Garden districts, in Allegheny, are about all that human ingenuity can devise for those localities, as a preventive of sudden overflow of the streams. But no further delays should take place, and whatever is to be done should be done promptly and well. The violent storms of rain which appear to be prevalent everywhere this Summer indicate that a flood of this nature may visit our city at any time; but the proper precautionary measures may prevent loss of life, and, to a great extent, of property.

"WHAT must the intelligent readers of a newspaper think of a journal that cannot find room for the very explicit charges Professor Marsh brings against Secretary Delano and Indian Commissioner Smith, and yet has abundant space for Commissioner Smith's weak rejoinder? This is the course pursued by two of our contemporaries."—*Chronicle.*

So far as this item may seem to apply to the GAZETTE, we have but this to say: The letter referred to, was crowded out of our issue of Wednesday, along with much other local and telegraphic news, owing to the advertising space demanded of us by the insertion of the bank notices along with our general business. No authority was given for the suppression of this or any other item of news; and the *Chronicle* should have been charitable enough to have thought *so*, to say the least. Besides, if its present writing editor had read the GAZETTE of yesterday, he would have found in its editorial columns the essence of Prof. Marsh's letter very fully and prominently given. We regret that the omission was made; but cannot thank our cotemporary for its unkind and unjust charge that it was done intentionally and for a political purpose.

"UNNECESSARY offices, high salaries, exorbitant fees, and the entire system of Republican public robbery, must be wiped out, as inimical not only to the general welfare, and grinding upon the poor, but as positively dangerous to civil liberty."

This is from the *Post*, as might be imagined. How does it accord with the record made by the Democrats, who were in the majority, and, of course, had the responsibility for the wild, extravagant, unparliamentary and riotous proceedings in the House of Representatives, at Harrisburg, last Winter? The soft promises made by a party organ, before an election, of the great reforms that will be inaugurated with the success of its party, are idle words, as the public generally look to the conduct of a party while in power as the test of its claims for continuance. The misgovernment and disorderly conduct of the last session of the House are directly chargeable to the incompetency of its Democratic Speaker, and to the vicious waste of time through their silly attempts to make party capital, by an interminable discussion of outside political events. The public will, and of right should, hold them accountable for the disgraceful scenes of last Winter in Harrisburg, brought on by their exultant, brow-beating and tyrannical attempts to domineer and humiliate the minority. Having had a brief exhibition of their authority, and their utter disregard of the plainest rules of economy, any talk now of their wish to "wipe out unnecessary offices, high salaries," and so forth, will be treated by the people as mere balderdash. They proved themselves the greediest set of gormandizers that ever hankered after the flesh-pots, and became the laughing stock of the whole State in their violent scramble for the newly acquired offices. How silly it is now in the *Post* to talk so, in view of last Winter's record.

THE attack made on the free school system by the Democracy of Ohio is entering largely into the canvass of that State, and calling forth the most determined opposition to that party from all quarters. It is believed and openly charged that the Democratic party of Ohio is controlled by the large Catholic element, and that its success means the overthrow of the common school system. We would countenance no war upon the religious belief of any one, as we regard the freedom which this country accords to all in matters of religion as one of the proudest monuments of our glory; but against all attempts to interfere, impede or overturn the system of public schools, as we now have it, we enter our most earnest and emphatic protest, and promise to do all in our power to prevent them. The following, taken from the Cleveland *Herald*, we find reprinted in the Cincinnati *Gazette*, and we give it to our readers as an evidence of the prevailing belief, that the success of the Democratic party in Ohio means the introduction into our politics of the sectarian question of the division of the school fund. We would regard the issue as an unfortunate one, as it might tend to drag into the controversy it would necessarily produce, the sectarian or religious elements of discussion. This we would deplore in any event, as we would be the last to engage in a warfare against the religious belief of any one; but we must say that, if the contest is brought on, it will not be through any fault of the Republican party, who merely say "hands off our common schools." The following is the extract:

"The Democratic party may pass resolutions while their breath holds out, but the people believe there is a coalition between Democracy and Romanism; they believe Democratic resolutions are Jesuitical, and that a special dispensation has been granted the Democratic leaders to say what they choose to deceive the people, and, believing this, there is a fixed determination to rebuke the attempt to destroy our present free schools by the introduction of any sectarian religious element. This determination, as the matter now looks, will secure the Republicans a marked victory."

THE COTTON CONGRESS.

The Cotton Congress, now in session at Raleigh, N. C., is an intelligent body of men, if we are to judge it by its recommendations in the interest of the better development of the material resources of the South. It appears to be filling a want, long needed in the cotton States; and its efforts at building up a connected system of bureaus of information will, if properly carried out, tell with wonderful effect on the future. The Southern States, for want of combined effort and the proper utilization of the experience of their Northern neighbors, are many of them years behind in some of the institutions through which useful knowledge is disseminated, and general progress thereby made. The recommendation of the establishment of agricultural bureaus in the several States is a sound one, as the earliest and fullest information could be collected and utilized through their labors.

The Congress adopted a resolution urging the necessity and economy of each portion of the South raising its share of articles of prime necessity, thereby withdrawing from the production of the leading staples to an extent limited by its own wants. We cannot say that this idea strikes us as wise, for this reason: In the South, as in the North, that crop which will produce the most money through the largest yield is the one studied after; and if a plantation is best adapted to the raising of cotton or wheat, it would be manifestly wrong to plant it in oats or potatoes. The idea held out is that the South should be less of a buyer of farm products, such as the North raises now almost wholly, by appropriating a portion of the land in each section to the raising of a mixed crop of articles of prime necessity. We think this is wrong, for the reason given. Raise all the wheat, corn, cotton, or sugar, or whatever the land is best fitted for producing, then enough can be spared to purchase those things which other sections raise to better advantage. Hay, potatoes and oats yield but an indifferent crop in some of the Southern States; would it not therefore be manifest folly to attempt to force their growth at the expense of a much fuller and more remunerative crop of sugar or cotton? It is well enough, perhaps, to recommend to each planter to experiment on several kinds of crops, but experience has taught so far, that the great Southern staples pay the best in the South, not only, but enable the planter to buy from the North those products which yield best in our soil.

The want of better railway facilities in most sections of the South is apparent to any one visiting that section in the busy season. We have witnessed the most serious delays in moving the cotton crop through portions of Tennessee, Mississippi and Georgia, trains completely blocked up for days at a time, reaching for miles at a stretch, while the interior continued to fill up the depots much faster than the capacity of the roads could empty them. More railways are perhaps needed, but better facilities for running those already built are urgently demanded. More cars and engines, more sidings, and, perhaps, more experienced hands to manage them are wants that any body can readily see. We look for good results from this Cotton Congress in more ways than one. It might be well for the wheat growers to imitate the example set them.

POLITICAL NOTES.

THE people of Nebraska vote on their constitution October 12.

THE Mifflinburg *Telegraph* promises eight hundred majority for the Republican ticket in Union county.

THE Ohio *State Journal* calls attention to the fact that the last Democratic Treasurer of State was a defaulter to the extent of $659,000.

TILDEN and Dorsheimer, Governor and Lieutenant Governor of New York, are both at Long Branch. Yet not a single Democratic paper has raised to curse them.

THE *Courier-Journal's* observation that in the next Congress there will be more representatives who "fought against" the Union than who fought with it, classifies the Democrats rightly, but perhaps without their consent.

THE substantial unanimity of the Republican platforms this year contrast significantly enough with the Democratic coat of many colors made up from the avowals of that party in the several States. Their platforms, as the French say of incongruous pieces of furniture, swear at each other.

MARYLAND has a new secret organization, already large and powerful, which has for one of its main purposes opposition to the policy of granting State or municipal aid to sectarian institutions. It has a membership of 15,000 voters in Baltimore alone, so it is said. Though men of all politics and nationalities are embraced in the order, it is understood to be anti-Catholic. It will show its strength in the next State election.

A LOUISVILLE correspondent writes as follows to the Cincinnati *Times*: "The Republicans of Kentucky, under the leadship of General John M. Harlan, are just now conducting a more vigorous campaign then they have ever before effected, and their prospects are more encouraging than at any time within the history of the party in this State. General Harlan is doing a Spartan's work, presenting to the people in a clear and forcible manner, arguments that cannot be gainsaid. He has driven Democratic orators to the wall, and, in response to their cry for help, the State Executive Committee have sent into the field every available man capable of making a speech."

PERSONAL.

MOODY AND SANKEY sail for the United States August 4th.

ELIZABETH will be heard. She sues for divorce from Theodore.

THE Boston *Globe* wishes Mrs. Sartoris "many happy returns."

OLIVE LOGAN proudly refused a $500 diamond ring that was offered her if she would sign her name "Olive Sykes."

SANTA ANNA is at present living in the City of Mexico in very moderate circumstances. He takes no part in public matters.

SENATOR CAMERON is put down as worth $1,000,000 by one who professes to know the wealth of United States Senators.

GENERAL MYER, better known as "Old Probs," is taking a vacation at Lakeview, near Buffalo, which accounts for the present stormy weather.

EX-GOVERNOR CARNEY, of Kansas, is engaged in the shoe trade in St. Louis. He is a whole-souled sort of a man, and it is pleasant to know that he has prospered, so that if he should peg out any moment his heirs would be well heeled.

MLLE. TIETJENS, the noted songstress who is to visit us next season, is forty-one years old and of Hungarian origin. She made her debut on the operatic stage in Hamburg, her native city, in 1849, and ever since then her star has been in the ascendant.

IT is stated in Wisconsin papers that Rev. J. S. Shipman, recently elected Episcopal Bishop of the Fon du Lac Diocese, will soon write a letter declining to accept the position. Rev. Dr. Coleman, of Toledo, Ohio, was first elected to the office, and declined it.

VICTOR HUGO is said to be financially the most successful writer of the present day, and is given the name of driving very hard bargains with the publishers. The estimated aggregate amount of his earnings is $700,000. He has received nearly $150,000 for his plays alone.

HERE's another professor in luck. The daughter of the late Robert H. Ives, of Rhode Island, now the wife of Professor Gamewell, late of Brown University, has fallen heir, by the death of her father, to an estate valued at between eight and twelve millions of dollars.

QUEEN VICTORIA acknowledged the reception of some publications on the temperance question, recently, in the following letter: "I am desired to thank you for placing in Her Majesty's hands works on a subject of the deepest importance to her and to every one in this country. It is impossible for the Queen not to be grateful to those who endeavor to mitigate an evil of such magnitude as the widely-spread intemperance which unfortunately prevails."

THE Conewango Swamp, containing some 25,000 acres of wet farming land, in Chautauqua and Cattaraugus counties, New York, is about to be reclaimed by drainage. It is estimated that by this means over $1,000,000 worth of land will be got under cultivation.

THE pawnbroking department of the Italian Government announces the sale of an unredeemed gallery of paintings in November next, in eleven lots. If, however, an offer of 815,000f. for the whole gallery is made before the time fixed for the sale, the pictures will be auctioned off in one lot.

A DISPATCH from the Red Cloud Agency reports the killing of two Indians and wounding three others by soldiers on the Little White Earth river. This being on the reservation, the Indians are intensely excited over the occurrence, and all negotiations and work of the Commission entirely suspended, and they are detained at the Red Cloud Agency.

A FEW days ago the proprietor of a market at Hartford, while serving customers, was astonished by the loud and sudden squealing of a rat in the rear of his premises. On examination he found that one of the animals, in attempting to pass over a pile of clams, had dropped his tail into the partly open mouth of one of the shellfish, which, closing, had the interloper fast. The rat was duly dispatched.

LIGHTNING played some remarkable freaks in the house of Mrs. Philbrick, at Alton, Me., Tuesday evening. It entered one end, passed between Mrs. Philbrick and her son into the pantry, where it pierced holes in the top and bottom of a coffeepot, jarred a dipper into a tin waterpail, and soldered them firmly together. A cat was singed as smoothly as though she had been clipped, without otherwise injuring her.

SENATOR SARGENT made a neat little computation in his recent speech at San Francisco. "Have you," said he, "thought, fellow-citizens, that the reduction of the national debt has been $120 a minute since you have sat here and I commenced talking? Taking the average of the whole time, the reduction of the debt has gone on at that rate. Why take your watch and look at it. See the second hand as it flies: at each tick of the second hand $2 during the whole time since Grant's inauguration, by day and by night, upon week-day and upon Sunday—$2 per second in gold has gone off the 'national debt.'"

A CAREFUL review of the foreign fruit trade shows the enormous proportion of the loss, during the voyage, on the shipments of lemons and oranges from Mediterranean ports; the loss on lemons being forty-five per cent. of the total shipments of 13,501,680, and on oranges sixty per cent. of 15,341,760. Of 2,804,389 pineapples shipped to New York from the West Indies, during the month, 1,053,294 perished on the voyage.

CLINTON COOK and Henry C. Spencer, *alias* John Gallagher, two drunken roughs, quarreled in a house of prostitution in Chicago on Wednesday night, when the latter shot Cook twice, one of the shots taking effect in the abdomen, and causing death a short time afterwards. The murderer is described as one of the most bloodthirsty and wicked of men, with the reputation of a desperado. He formerly lived in St. Louis, and claims to be of English birth. He was arrested.

THE last hours of a condemned murderer in Georgia were spent recently in witnessing the struggle of a Catholic priest, two Baptist ministers, and one Methodist preacher. As the fight waxed fierce he began to realize the value of an immortal soul, and after the jailor had taken all but the Methodist to undergo the necessary repair incidental to a free fight in the corridor, he politely informed the victorious churchman that "he guessed he'd take his soul with him when he died; much obliged, but he might need it."

DISPATCHES from points along the line of the Union Pacific, S. C. & P., and Otoe, Cass and Sarpy counties, represent the crops as fine everywhere. Farmers expect to harvest at least two-thirds of a crop. Grasshoppers are still flying northwest over some points. Barley and rye are already being harvested in many places. Reports from southern and southwestern parts of Nebraska are very favorable: The weather is hot and dry north of the Platte river, and a little too much rain in some localities of the south.

THERE are more visitors from New York, Philadelphia and the Southern cities at the Glen House, White Mountains, than from Boston. Josh Billings is there and catches enough trout every day to supply the table.

THE German element is very conspicuous at all the watering places this season. The Boston *Traveller* says they are noted for their fresh and honest enjoyment, and ungrudging expenditure for all the requisites of comfort. Especially is this true of the Jewish element. The prominent feature of the Grand Union Hotel, we are told, is the number of lovely Jewesses in gorgeous attire, who promenade the piazzas, with heavy gray-suited compatriots in attendance.

A CORRESPONDENT says: "Several ladies were sitting together on the balcony of the Clifton, Niagara, the other night, when the moon, although 'full,' was not demonstrative. A natty little fellow came toward the group and softly said, 'Pussie, darling,' whereupon all the young ladies jumped up and came toward him eagerly. He selected one, and walked away with her. The other brides sat down and told their respective Romeos afterward that it was 'too ridiculous for anything,' and that they were never so embarrassed in the whole course of their life.'"

To Business Men and Christians.

Rev. E. C. Crisman, Corresponding Secretary and General Superintendent of the Board of Missions of the Cumberland Presbyterian Church, has addressed the following circular to the "generous everywhere." It speaks for itself:

ST. LOUIS, MO., July 1, 1875.

The Cumberland Presbyterian Church is composed of near one hundred and twenty-five thousand enrolled members, and represents the religious sentiments and work of near a quarter of a million people, located mainly in the West, Northwest, South and Southwest portions of our great country. These people are consumers, using what is produced, manufactured and imported by their brethren in other parts. During the last two years, more particularly 1874, the sections of the country where our denomination mostly is located have suffered by unexampled droughts and other disasters to crops, so we find it quite difficult to raise among our people now the funds necessary to carry on the work of our denomination. Under these circumstances we have supposed that it would not be amiss for us to make this appeal to our more favored brethren of the Central, Northern and Eastern portions of our common country, and to the manufacturers, merchants, capitalists, packers, &c., of our cities and towns, for help to get our work through the Summer. If we can get through the middle of the coming Fall without withdrawing any of our missionaries from their fields, it is hoped that Providence will so smile upon us with the usual crop, that the people of our denomination will be able—as they are willing—to support this great work of Christian philanthrophy with their own contributions. But for the present we must have help from others, or it is feared that we will be compelled to withdraw many of our missionaries, and to abandon fields already occupied and ripe for spiritual harvest.

We make this appeal to our brethren of other denominations, and to the generous everywhere, in the name and for the sake of our Lord Jesus Christ, and in the confident belief that it will be properly viewed and appreciated. Help us through with our work this year, brethren and sisters, and God will bless you in giving and us for asking it, and we, as well as the souls saved through the instrumentality of our missionaries, will thank you in heaven. Address remittances to Rev. E. B. Crisman, Corresponding Secretary and General Superintendent, 701 Washington avenue, St. Louis, Mo.

One of Lincoln's Anecdotes Applied.

In his speech at Mr. Beecher's house at Peekskills, on Monday night, the Hon. Chauncey M. Depew was impelled, by an allusion to the great amount of testimony and the little evidence taken in the six months' trial of the Tilton suit, to tell an anecdote of the late President Lincoln, which we do not remember to have seen printed. Mr. Depew prefaced it by saying that when, as Secretary of State of New York, he visited Washington in 1864, to look after the army vote, he had occasion frequently to refer matters to Mr. Lincoln, who one day was reminded of a story, which he declared was one of the only two anecdotes original with him, notwithstanding his reputation for story-telling. "I only applied the good stories others tell me," the President said. The story which he thereupon proceeded to tell Mr. Depew was to the effect that many years before, when practicing in Illinois, he had appeared for the defendant in a case of assault and battery, in which the complainant did not seem to be very much injured, although he had been through a long series of brawls. In the course of the plaintiff's examination Mr. Lincoln asked, "How much ground did you fight over?" "About six acres," was the reply. "Don't you think," asked Mr. Lincoln, "that that was an almighty small crop of fight for so much ground?" Amid the roars of laughter which followed, and in which the voice of Mr. Beecher was heard above all the others, Mr. Depew suggested that it was needless to make the application to such a quickly appreciative audience.

Ich aber—es sind drei.

Atqui, es sind zwei Braten hier,
Und eins steckt ja in zwei:
Ergo, so zeigt die Logik mir,
Sind auch der Braten drei.

Recht so, versetzt der Herr Papa,
Gott segne dein Bemuehn!
Ich nehme den, den die Mama,
Nimm du den dritten hin.

General Sherman Speaks.

Now comes a letter from General Sherman himself, following that of his wife, "Ex-Soldier," determined to satisfy everybody of the falsity of the charges of the *Courier-Journal's* correspondent, sent copies of the stories to Sherman as well as his wife. And here is Sherman's reply:

ST. LOUIS, MO., July 7, 1875.

MY DEAR SIR: Your letter enclosing a slip from the *Courier-Journal* was only received by me, this morning, by reason of an absence of some days. I now reply to say that I appreciate the kind feeling you express, based on a long acquaintance. I do not write to combat the expressions in the printed slip. This is essentially a free country, with liberty of the press and of speech. I do not object to the severest criticisms of the Southern press, for my opinions have been fully expressed, and I was among the first to extend to them the most moderate views. If they choose to regard me as their enemy I can not help it. I was never at "Eaton Factory" in my life. Mrs. Sherman is and always has been a Catholic, and has extended charity to all alike, Catholic and Protestant, with a lavishness that actually impoverishes us. To question the purity of her motives is certainly a most unmanly way to reflect on me.

Truly your friend,
W. T. SHERMAN.

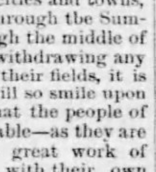
VERDICT
In Favor of Howe's Standard Scales.


We, the undersigned, comprising *all the wholesale Butchers of Chicago*, are using the IMPROVED HOWE STANDARD SCALES, and after using Fairbanks' and other Scales, do find that the improvements in the HOWE Scale render it the *best*.
We use a scale *severely*, and find the HOWE to be *the strongest*.
We weigh out each day over *thirty thousand dollars worth of meat*, to the retail markets, in various quantities, and require our *large scales to weigh small fractions of a pound*.
This merit we have *found* is *alone* possessed by the IMPROVED HOWE and is maintained after the most severe and longest tests, being attributable to the patent chilled iron balls between the platform and knife edges, on which all friction is received, thus preserving the fine edge of the pivots on which the correct and delicate action of a scale depends.
We also find the IMPROVED HOWE SCALES *the most economical*, not needing the frequent repairs that Fairbanks' and other scales do.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, July 16, 1875.

Gold continues to decline, having dropped another 1 per cent., which strenghtens the belief that its fall will be permanent. Our money market remains quiet and healthy; money is plenty and is seeking safe investment here from the Eastern cities at from 7 to 8 per cent. The banks all show a sound and easy condition, with rather more of a surplus in some of them than could be wished by their boards. The outlook is rather more encouraging for the Fall business than was predicted some time ago.

The weekly bank statement issued on Saturday in New York gives strong encouragement of an early revival in business. There is a noticeable falling off of legal tender reserves in the banks, the average being more than three millions less than for the previous week. Of course no marked and sudden revival should be expected. But when the heated term shall have passed away and the Autumn business fully opened, with the moving of the crops and other work incidental to that season of the year, we may reasonably look for better times than we have witnessed for a long time.

The expected advance of discount in Frankfort has taken place, the Bank of Prussia having raised its rate to 5 per cent. At the same time bonds of 1862 come ⅛ higher, at 98⅛, and we do not yet trace anything in London which shows that 5 per cent. discount in Germany causes uneasiness in the English market. Consols are a shade easier, 94 1-16a94⅛ for money; bonds steady, and Erie still 13⅛, after dipping to 12⅞. Erie is carried over to next fortnightly settlement "flat" and at 2 per cent. interest. The Bank of England gained £257,000 gold "on balance," making £747,000 in five days.

Gold fluctuated all day between 114¾a115, closing at 114⅞ bid. Loans were made at 1, 4a1-16, and flat. The carrying rate was 2. There was a small failure in the Gold Room to-day. Governments are weak. Railroad bonds are quiet. State securities are dull. Stocks were dull. The fluctuations were the greatest in Atlantic & Pacific Telegraph, which advanced 2⅛ per cent., then declined 1⅛, and afterward recovered ⅞ per cent. PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, July 15, 1875.

The petroleum market continues badly demoralized, and no improvement in business can be expected until it settles down. As it has been for some days past, buyers, both of the raw article and the product, have held off or bought very sparingly, being apprehensive that prices would go still lower, and the subseqnent course of the market has demonstrated that they were on the right track.

Crude was quoted to-day at $1,05 for immediate shipment, and Conduit Certificates at 82½. Refined has also further declined; Philadelphia delivery was quoted at 11, and we are cognizant of a sale this P. M. at 11¾ deliverable in Baltimore, equal to about 8½ on cars here.

Barrels continue dull, but prices are nominally unchanged; countries, 1,10@1,15; city make, $1,28@$1,30.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, July 15, 1875.

General business continues dull, and the leading markets present but little that is really new or important to which reference has not previously been made. While trade in all branches of business is dull, unusually so, there is a firmer feeling in some of the leading articles, including grain, groceries and provisions under the influence of late advices from the source of supply, but there has been no quotable change in prices within the past few days.

APPLES—Selling in a jobbing way at $3@4 per bbl for green Apples, according to quality and condition.

BERRIES—Raspberries were quoted at $9@10 ₱ stand of two bushels; eastern Blackberries, 15@18c ₱ quart box.

BEANS—Continue dull, but with a limited supply, prices are maintained; $1,90@2 ₱ bushel, the outside figure for prime navies.

BUTTER—Commission men continue to report an active demand for the finer grades, which are in light stock and prices are firm at 18@20; low grade stock, however, is in good supply and hard to dispose of at any price. A New York exchange, of Wednesday, says of that market: "The market rules unusually steady compared with some former seasons. From the beginning of new butter prices have greatly favored buyers, and all things have worked advantageously in keeping prices from shrinking Western was kept back by the late season long enough for State to settle into a popular range, and just as soon as New York farmers began to pack, Western arrived, due and abundant enough to fill a steady want. We are not using butter heavily at this time; Western shippers have wisely reduced supplies. Rumor says that nearly double the quantity could be sent this way if our wants required increased receipts. Much of the reserved supply at the West we learn is of fine June grass make, and is consequently a good grade to hold. The market is generally quiet, and very easy ranges are named for Western. State is not in large stock, but there is no encouragement for better supplies of firkins or half tubs. Pails are abundant, and as before the outside rate is for grocery parcels; jobbers or buyers of nearly equal importance will only pay 23c."

BROOM CORN—We continue to quote good to choice hurl, 12½ to 13½ cents; Brush that will work itself into a choice hurl broom, 11½ to 13c; fair to good do., 10½ to 11c; inferior brush, 8½ to 9½; crooked, 6½ to 8 cents.

BROOMS—Following are "Union Factory" rates:—from store:—No. 2 common, $2,25; No. 3 hurl, $2,50; No. 4 hurl, $3; No. 5 hurl, $3,50; No. 5 hurl, $3,75; No. 3 carpet, $4; No. 4 carpet, $4,62; No. 5 carpet, $4,50; fancy parlor, $4,75; steamboat brooms, $3 to $3.50; plain whisks, $1,25 to $1,75; Fancy whisks, $1,50 to $2; Toy Brooms $1,25 to $1,50.

CHEESE—There is a continued steady demand, and we are reported regular jobbing sales of prime Ohio Factory at 11@11½. A late New York report says:—Liverpool cable, 56s; London do., 57s 6d. At Utica the sales were light, ranging at 12@12⅜. At Little Falls there was a good trade of about nine thousand boxes at 11⅜@12⅛c for Factory, and 8⅜@11⅛c for dairies. There has been a good demand during the week for fine styles of Factory, and the exporters have quite equaled the receipts. There is no unsold stock of good useful Shipping grades. Common or Summer damaged Cheese are not wanted, and very indefinite ideas as to prices for poor stock prevail. Some of the later arrivals are turning out poor. The market is not active at the close, and there is a tendency to lower prices. Some fancy flat Ohio are selling as high as Cheddar-stamped.

DRIED FRUIT—The season is about over, but there is a light movement still, at 7½@8c for Apples, and 10½ to 11 for Peaches.

EGGS—The market has scarcely varied any for a week or more past; the receipts have just been sufficient to supply the demand, hence there has been little or no change in prices, 19@20.

FLOUR—The general tone and spirit of the market is firmer, but the demand continues very light, restricted entirely to supplying immediate necessities, and prices remain unchanged. Wheat is reported firmer at all points, and this, as a matter of course, is not without its effect on flour, as the two staples are very closely connected, and must sympathize—the one with the other. Spring wheat flours, $5,75 to $6,25, the outside figure for choice Minnesotas; winters, $6,25@6,50 for red, and $6.75@7 for amber and white. Rye Flour, $6,00@6,25 per bbl.

GROCERIES—There is a continued increasing trade in Sugars, especially Refined goods, and the market is firm, the recent sharp advance being fully maintained. Our New York and Baltimore dispatches of yesterday reported Coffee firmer again, but operators generally do not anticipate any further advance. Molasses continue dull and in light stock, and the same is true of Syrups.

GRAIN—The market for Wheat is firmer, in consequence of the advance at the West, our main source of supply, but the demand is light and prices remain unchanged: Penna. and Ohio red, $1,23@1,25; ditto, amber and white, 3 to 5c additional. The weather is unfavorable for harvesting, and it appears to be generally conceded that the crop will be a light one. The Oat market continues dull, but without quotable change; mixed, 57@58; white, 59@60. The crop of Oats it is claimed will be the largest for many years. Corn is in light supply, but there is not much inquiry for it; Ear on track, quotable at 75@77 for mixed to yellow, and Shelled, in elevator at 75@78. Rye continues quiet and nominal at $1@1.05.

HAY—Sales of Baled reported at $18@21, according to condition and quality. Loose from country wagons, $25@28 for old, and $17@22 for new.

MILL FEED—Is in light stock, but there is not much inquiry, and prices are nominally unchanged.

POTATOES & VEGETABLES—Potatoes continue to come in freely, and with a supply accumulating, prices are weak and lower; $2@2,50 ₱ bbl. Cabbages unchanged at $2@2,50 ₱ bbl; Tomatoes, $2 to $2,50 ₱ box. Cucumbers ₱ box, $1,50@2; Onions, $ 75@1 per box.

POULTRY—Live Chickens are coming in more freely, and prices are weak and lower; 45@55c ₱ pyir by the coop.

PROVISIONS—There is a continued steaky demand for the hog products, but no change to note in prices. A Chicago paper of Wednesday, says: The market seems to be well cleared up, nearly all the August deliveries being provided for, with most of those for September, and there is very little inclination to enter on new business, especially before the stocks are taken on the 15th. The demand for consumption is now chiefly restricted to hams, which are wanted for distribution to Philadelphia and the surrounding country. England has taken a good many long-cut hams recently. Nevertheless, the shipment of other descriptions of meats continue fair,—above the average for this time of the year.

PITTSBURGH LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, July 15, 1875.

PITTSBURGH CENTRAL STOCK YARDS.

ARRIVALS.

Following were the arrivals of live stock at these yards from Sunday up until noon to-day, and, to afford a comparison, we append those of the corresponding time last week also:

Cattle.

CATTLE.

The receipts, as will be seen, have slacked off considerably within the past two days, and at noon to-day there were not over half a dozen cars remaining unsold; the volume of business has been the largest we have had to record this year for the same time. The sales footed up 3,123 head, almost double what they were last week. It is said that some 140 or 150 cars—bought and through cattle—were shipped to Philadelphia, 30 or 40 cars to New York, and about 50 cars were taken by country dealers and butchers.

In regard to prices operators differed considerably; some salesmen contended that there was no quotable change in any of the various grades; others, while admitting that common cattle brought about last weeks rates, claimed that prime to extra corn-fed steers brought an advance of from ⅛ to ¼, and there were some sales of the latter character at the advance in question, but whether there was a general improvement in prices we are unable to state. One of our most prominent salesmen reported that while common and the very best cattle brought last week's prices, medium brought an advance. It was conceded on all hands, however, that the market was a satisfactory one to the selling interest; indeed, we think it turned out better than they had reason to expect, in view of the largely increased offerings. It is true the advices from the east were encouraging, and this, of course, had its effect in stimulating our market, but ordinarily with a supply such as we had this week, a decline is almost certain.

Our regular dealers, as might be expected, were very much pleased with the position of the market this week, particularly the increase in business, and we are of the belief that the improvement here will have a tendency to curtail business at Chicago, as we are satisfied that quite a number of the buyers here this week would, provided they had not been able to get what they wanted here, have been obliged to go on to Chicago. It is evident that Philadelphia buyers can do better here than in Chicago; otherwise they would not buy as they have been for some weeks past, the great bulk of their cattle in this market.

QUOTATIONS.

Extra 1,400@1,500 steers	7,00@7,40
Prime 1,200@1,300 steers	6,50@7,00
Good 1,100@1,200 steers	5,75@6,50
Light 1,000@1,100 steers	5,00@5,50
Common, 900 to 1,000 steers	4,50@4,75
Bulls, Stags, and Cows	2,50@3,50
Stockers	2,50@3,50
Texans	3,25@4,25

HOGS.

The market has been moderately active during the past week, and with an average demand and light supply, an advance of 20@30c ₱ cwt has been established. Good light York hogs have been selling steadily right along all week as fast as they arrived; indeed, the supply of this particular kind was scarcely equal to the demand, hence, sellers had no difficulty in establishing the advance above noted; heavy Yorkers, however, continue dull, and as they are not suited for the Philadelphia trade, and they are not bringing as much money as lighter weights. The demand for Philadelphia hogs, which means those of good quality, averaging from 200 to 360 lbs., has not been active by any means, but with a limited supply they, too, improved in price. The feeling to-day, however, was scarcely as strong as it was yesterday, and unless there is a further advance in Chicago, we need not expect prices to go any higher here; just as soon as our market gets above Chicago, shippers will order from Chicago instead of buying here, and this appeared to be the situation to-day.

QUOTATIONS.

Philadelphia Hogs	7,70@7,90
Light Yorkers	7,50@7,65
Heavy Yorkers	7,40@7,50
Roughs and Inferiors	6,00@6,50

SHEEP AND LAMBS.

The run, as will be seen, was considerably in excess of that of the corresponding time last week, but with an increased demand the advance of last week, contrary to general expectation, was fully sustained, and in some instances an advance was realized. Last week, it will be recollected, prices were sprung up from ⅛ to 1 cent ₱ lb., and many thought it was too great to be sustained; furthermore, it was expected that it would cause increased receipts, which it did, but, as already stated, prices did not go back as it was supposed they would. In a word, we think the market was considerably better than it was generally expected it would be, particularly in view of the increased offerings.

QUOTATIONS

Extra 95@100 lb	5,25@5,50
Prime 85@90 lbs	4,75@5,00
Good 75@80 lbs	4,25@4,50
Fair 70@75 lbs	3,75@4,00
Common 70@75 lbs	3,00@3,50

H. Erisman reports having bought 1 car extra fine wool, 105 lb. wethers at 5,65; 3 cars prime 100 lb. fine wool ditto at 5,40; 6 cars good 90 lbs. at 5,15; 6 cars good 80 lbs. at 5; 4 cars fair. at 4⅜.

Dry Goods.

NEW YORK, July 15.—There are more buyers in market, and an improved package demand for staple cotton and woolen goods is noticed. Some large lines of brown sheetings have been closed out with increased discounts. Cotton flannels are in better demand. Prints are dull. Fancy cassimeres, worsted coatings and Kentucky jeans are fairly active. Shirts and drawers are fairly active.

THE WOOL TRADE.

Philadelphia.

The market is abundantly supplied with the new clip, and from all sections the receipts have been liberal. Combing is in active request and sells readily at full prices. Unwashed fleeces meet with a fair inquiry, but other descriptions are not wanted. Holders do not attempt to force sales, as such a course would inevitably depress prices; sales of 400,000 lbs within the range of the following prices: Pennsylvania, Ohio and West Virginia fleeces, XX and above, 50 to 52c; X, 50 to 52; ½ blood, 52 to 53; ¾ blood, 50 to 52; combing—fine unwashed, 32 to 34; medium unwashed, 37 to 40; washed fleece, 60 to 65; unwashed fleece, 42 to 45; New York, Michigan and Wisconsin—XX and above, 48 to 50; X, 48 to 50; ½ blood, 51 to 52; ¼ blood, 49 to 50. Illinois, Iowa and Minnesota—Full blood fleece, 48 to 50; ¾ blood, 48 to 50; ½ blood, 51 to 52; ¼ blood, 48 to 50; combing fleeces, 45 to 47. NEW YORK.

NEW YORK, July 14.—Wool has met with a better inquiry since our last, and there is less depression in the Goods trade. New fleeces are arriving more freely, but values tend in buyers' favor owing to the liberal receipts. Fine grades of both foreign and domestic are a shade easier. Carpet Wools are in good request at firm prices. California Wools holders are still willing to shade prices. In Pulled Wools the supplies are light, and holders are firm in their views. Texas is in moderate demand at unchanged rates. The sales embrace 1,000 lbs City Pulled at 50c; 15,000 lbs. Georgia on private terms; 10 bales scoured California on private terms; 6,000 lbs Western Fine Unwashed at 75c; 6,000 lbs Eastern Texas on private terms; 5,000 lbs Free Carpet Wools at 23c; 12,000 lbs Ohio X and XX Fleeces on private terms; 4,000 lbs Medium Unwashed at 37c; 10,000 lbs Free California at 28c; 5,000 lbs Fall California at 19@20c; 15,000 lbs Spring do. at 27@29c; 6,000 lbs. RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

THE stage of water last evening was 3 feet 1 inch and falling. It is remarkable, in view of the heavy rains west and south, that there has been so little here or at the headwaters of either the Monongahela or Allegheny Rivers. The Kanawha and Monongahela head together, yet while there has been quite a freshet in the latter stream within the past day or two, there has been no rise in the former as yet. However, there will doubtless be water here within the next few days.

THE Utah has withdrawn her advertisement for Pittsburgh, and lies up for the present.

LITTLE OLE JOEFIELD, the pioneer boatman on the Western waters, was the spread-eagle orator of the day on the Glorious Fourth, down at the mouth of Smithland.

ON her last trip up Kanawha a fire broke out on the hurricane deck of the Julia No. 2, caused by sparks falling on the matresses, which, by timely discovery, occasioned less damage than fright.

No show at Pittsburgh for a coal-boat rise yet. Danny McAleer says: "We'll have it—plenty of it, too—between the 12th and 18th of next month." Danny doesn't guess wrong often.—*Louisville Courier.*

CAPT. R. W. DUGAN has contracted to raise the barge Kelly, and the iron on her, that was sunk by the Thos. W. Means, in a storm at Cave-in-Rock, some time ago. Work will be commenced so soon as the stage of water will permit.

THE new boat now building at Evansville for the old Rapidan will be named Judge Fowler, in complimentary honor of the venerable father of the Lower Ohio Fowler boys, Dick, Jo, Gus, Whyte and Willie, all prominent members of the McCracken Navy.

A DISPATCH from Shawneetown of July 14th reports great damage by the flood. The people in the bottom along the Ohio and Wabash rivers are seriously alarmed on account of the threatened overflow. A great many farmers have entirely lost their crops by the flood.

ADVICES from Charleston, July 14, announce that the Kanawha fell six feet up to 4 P. M., but is now swelling again. The gauge reads 18 feet 3 inches. The Julia No. 2 left for Cincinnati at 9:30 A. M. Heavy showers this morning. Gauley and New rivers rising. Coal river higher than it has been since 1861.

A JULY 14 telegram from Frankfort says: The marks show that there is 14 feet water in the channel of the Kentucky River at this point, and rising slowly. Very heavy rain fell this morning for two hours, and a heavy rain fell this evening for nearly an hour. Cloudy, with indications of more rain.

THE Cincinnati *Commercial* of yesterday says the Champion No. 8 on Wednesday raised one barge of coal, containing 2,500 bushels, sunk last spring, at Barrett's Landing. Two others that were out on the bank were floated off by the freshet. The Champion towed all three barges to Wolf's Rolling Mill, at Newport.

THE Paducah *Herald* says that Dick Fowler, captain of the Idlewild, a few days ago, caved in a negro's head, was tried for the offense before the United States Commissioner at Evansville, was found not guilty of having done any wrong, and dismissed from the Court with only this admonition: "That next time, however, it would be advisable not to hit him quite so hard."

A DISPATCH to the Cincinnati *Gazette* from St. Albans, Wednesday evening, says:—Kanawha river falling. The loss from the recent rise in Coal river has been estimated at from $75,000 to $100,000. Considerable damage done to the locks. The new iron bridge at the upper falls of Coal river was carried away. It had just been finished at a cost of $80,000.

A NEW ORLEANS exchange says:—The fine steamer Thompson Dean, Capt. W. B. Miller, left last evening for St. Louis. On the completion of her trip at St. Louis she will proceed to Mound City, Ill., where she will undergo extensive and thorough repairs, to make her a perfect cotton-carrying boat. Capt. Miller informed this reporter that he had closed with Hambleton, of the above city, to do all the work, and that it will be done in time for her to commence her trips from Memphis to this city about the 10th of September.

A REPORT was printed a few days ago to the effect that the Thompson Dean had been purchased by St. Louis parties for the ridiculously low price of $25,000, and now the Louisville *Courier-Journal* denies the report authoritatively. It says there is not a word of truth in it, and that such foolish ideas are circulated to injure the reputation of one of the best boats afloat. Ever since Captain Paul was taken off the roof of the Thompson Dean she has made money, and he has been going round trying to sell his little interest in her, because the other owners wouldn't let him "boss" her.

HOME NEWS.

Furnished House Wanted

by a gentleman with no family, within easy distance of the city, accessible by drive or railroad. East End preferred. Best of reference given. Parties going away for the summer will find a good opportunity to get a fair rent for their residence when gone, with good security, that house and grounds will be in same condition, as when they left them, by addressing "Banker," P. O. Box 1026.

Temperance Convention.

A Temperance Convention was held yesterday in the Alliance rooms, at the corner of Penn and Sixth streets, for the purpose of forming a District Union, which it is proposed shall be an auxiliary to the National Christian Temperance Union, and which is to consist of three representatives from each subordinate temperance organization. Mrs. Bingham was elected President of the Convention, Mrs. Dr. Sterrett Vice President, Mrs. S. B. Robinson Treasurer, and Mrs. Patterson Secretary. The work in hand was not completed yesterday, nor was a delegate to the National Convention, which meets in November, elected, as was intended.

Indignant Property Holders.

General Barton, who was awarded the contract for laying sidewalks on Fifth avenue, has entered upon a course of procedure that occasions no little dissatisfaction among property holders. His contract calls for asphaltum pavement, but a number of the interested parties preferred another sort of pavement and accordingly they had brick laid at their own expense. Yesterday Mr. Barton's employes began tearing up these brick sidewalks and naturally enough those who put them down are highly indignant. The Commission for the improvement of the avenue have been notified by Controller Snodgrass that the contractor has exceeded his authority.

The Excursion to Butler.

The special train which left the West Penn Depot yesterday morning bore a large number of excursionists from this city and community to Butler. A band on board enlivened the trip. The attraction was the annual entertainment provided by the managers of the Orphans' Home. The excursionists received a right royal welcome at Butler and spent the day in the enjoyment of gastronomic and other pleasures. Every preparation had been made for their comfort, and they found hospitable treatment that made the visit a very enjoyable one. The excursionists returned last evening, and they unanimously voted the excursion—barring some little unpleasant meteorological influences—a great success.

A. O. U. W.

The report of Grand Recorder M'Nair, of the Grand Lodge A. O. U. W., which is now in session at Erie, shows the receipts for six months to be as follows: Insurance, $24,000.00; general fund, $2,504.18; paid twelve deaths, $24,000.00; balance of insurance fund on hand, $1,853.00; addition to membership during term, 550; number of members in good standing in Pennsylvania, 3,878.

The Grand Recorder's report was received, showing a balance of Grand Lodge fund on hand, $124. After the report of the standing committees had been presented and referred to the special committees, the Grand Lodge adjourned.

The Second Avenue Park.

The little trouble about the Second avenue Park has not yet been amicably arranged. Rumors of war are heard on all hands, and both sides are anxious for the fray in the Courts. Yesterday the subcommittee of the City Property Committee of Councils, by virtue of the authority vested in them, had the gates again barred. The work had not been done long before the representative of the people once more appeared on the scene with his little hatchet and opened up the way again. Then the ire of the Councilmanic hosts was fully aroused, and the depredator, Mr. George Cobley, found himself in the clutches of the law for trespass. He laughed his prosecutors to scorn, however, by giving bail, and announcing his fixed purpose to keep up the battle if it lasted all summer, or until the people secured their inalienable right to browse around and take in the life-giving air in the Park. Thus are the contending hosts arrayed at present.

The Sixty-first Regiment.

A meeting of the survivors of the Sixty-first regiment, Pennsylvania volunteers, was held last night in the Mayor's office, Municipal Hall, Captain Alexander Hays presiding. The Committee on Banner reported progress, and stated that they would likely be able to report finally at the next meeting. The report of the Committee on Constitution and By-Laws was accepted and the committee discharged. A committee consisting of Messrs. James B. Holmes, Wm. Rawie, Adam Schultz, Chas. Smith and Alex. Hays was appointed to procure designs for badges, and to ascertain the probable cost not only of them but of numbers and caps, and report next week. The meeting then adjourned to convene again on Friday evening, the 23d inst., at Gerst's Hall, corner of Second street and Madison avenue, Allegheny, when all members of the old regiment are earnestly requested to be present.

CHARGED WITH BIGAMY.

The Prosecutor Leaves the City

A man by the name of Charles Winterfield has been charged before Alderman Kreban, of the South Side, with bigamy. The action was brought by a woman, who represented herself to be the wife of the defendant, who only arrived in the city a few days ago, and who alleged that Charles deserted her in Germany some time since, taking with him two children. It was further set forth that Winterfield was married to a Mrs. Rothchild, a widow with four children, last spring. At the hearing wife No 1 agreed privately with Charles that if he would surrender the two children she would depart on the first train for Philadelphia. Her request was granted and the children were surrendered into the custody of the mother according to promise. Mrs. Winterfield No. 1 left for the east and is now supposed to be in the city of "Brotherly Love." A further hearing in the matter will take place next Thursday, and in case the prosecutor fails to put in an appearance the 'Squire is at a loss to know what disposition to make of the case.

AMUSEMENTS.

Cole's Circus.

W. W. Cole's menagerie and circus opened its doors yesterday afternoon to the public, at the lot at the western end of Robinson street, Allegheny. The performances both evening and afternoon were attended by all the tent could hold, and last night in particular the audience was very large. The collection of animals is not so extensive as some we have seen, but the beasts on exhibition are the finest of their race, and not the thin, scraggy animals, worn and weary with years of service, that one so often sees in menageries, and which leave the impression that they are better subjects for the grave than for exhibition. The waxen images of the principals in the Beecher-Tilton scandal, and their wives, proved the source of many comments, favorable and unfavorable, according to the belief of the critic in the guilt or innocence of the interested parties. The circus performance comprised quite a number of excellent features. The acrobatic feats were among the best we ever remember having see. Taken all in all the entertainment offered by Mr. Cole is a good one.

Germania Garden.

This now noted resort, at the Allegheny end of the Suspension bridge, was crowded last night, notwithstanding the moisture under foot and in the air. The musical feature in the evenings is the performance every night by the Keystone band.

Picnic Grove.

One of the best situations for private picnics and select rural parties that any of our railroad lines afford, is Weddell's grove, at Hulton station, on the Allegheny Valley Railroad. Its advantages are fully set forth in another column.

RAILROAD FIGHT AT BRADDOCKS.

An Engineer and Conductor Fined—A Rule Granted on 'Squire Snodgrass to Show Cause Why an Appeal Should not be Allowed.

It will be remembered that some weeks ago a difficulty arose between some of the employes of the Connellsville Railroad Company and the authorities at Braddock's borough, on account of running a train at a rate of speed exceeding six miles an hour within the corporate limits of the borough. Jno. F. Grey and Fred. Carothers, conductor and engineer of a passenger train on the road named, were arrested for an alleged violation of an ordinance regulating the speed of trains, and were taken before 'Squire Snodgrass, who imposed a fine on each of them. The defendants desiring to appeal the case to Court, allege that they have offered the Magistrate security for the costs at different times, which has been refused. They petitioned the Court of Common Pleas No. 1 yesterday to grant a rule on the 'Squire to show cause why such appeal should not be allowed, which was heard by Judge Collier in chambers. In their petition the defendants make affidavit setting forth, among other things, that the ordinance of the borough provides that the penalty shall be collected as other fines and penalties, whereas they are advised and believe that the acts of Assembly of the 15th of April, 1835, and the 5th of April, 1849, which confer power upon Justices of the Peace and Aldermen to hear and determine such sections, mean that the penalties shall be collected in like manner as debts under $100 are collectable, reserving to the parties the right to appeal as in other cases. They further say that a capias execution has been issued by the Justice of the Peace, commanding the Constable to commit the defendants to jail in default of goods found to be levied upon; that they are advised and believe that if the case was one of summary conviction, the Constitution gives the Court the right to enter an appeal on application. They therefore ask the Court to stay the execution and direct the Justice to return the transcript to the Court to be tried on an appeal.

A rule was granted as prayed for, by Judge Collier, returnable next Saturday at ten o'clock.

With your ice cream eat the Macaroons, Cocoanut Drops and Lady Fingers, manufactured by S. S. Marvin & Co. These goods are sold by many of the grocers, and at 91 and 93 Liberty street, at prices which are not extravagant.

One boy brought fourteen of them to the Mayor's office yesterday morning, and boys continued calling at the office all day, with a great or small number of dogs, where they found that the report about the fifty cents reward was not true.

····Michael Hastings and Frank Paisley, of Allegheny, took shelter in a box car on Pike street, during the heavy rain on Wednesday night. Two other men named Burke and James were also in the car who, it is said, attempted to rob the Alleghenians, in which they would have been successful but for the timely interference of the police. The would-be robbers were sent to Claremont for thirty days each by Mayor Phillips yesterday morning, as suspicious characters.

····Four of the Pittsburgh gentlemen who went out with the fishing party at Shade returned last evening, and the others will likely break camp to-morrow. They have been quite successful thus far in the matter of catching trout, but it seems that several millions of carnivorous gnats have taken up a temporary abode out in the immediate vicinity of their location, and the kind of mosquitoes that pick their teeth with fence rails would be more welcome guests.—*Johnstown Tribune.*

····It will be remembered that when the fearful deluge occurred in the Butchers' Run district of Allegheny last July, not one of the morning papers of this city gave any idea of the great loss of life. Ever since that time the reporters of the morning papers have been on the alert, and after every severe rain they visit the district in a body.—*Chronicle.* And the *Chronicle* man, with his ears pinned back, brays cheerfully as he uses his trustworthy shears in appropriating the result of the morning paper reporters' labors.

····G. W. Bartheld, who was arrested for surety of the peace, the outgrowth of a personal altercation on Wednesday afternoon between himself and Mr. Geo. W. Backofen, waived a hearing yesterday morning before the Mayor and gave $300 bail for Court. The difficulty could have been compromised and prosecutions to that effect were made, but Mr. Bartheld refused to listen to any of them, preferring to let the matter go to Court, and expressing his belief that a jury that would convict him after hearing the evidence could not be obtained in the county.

····The workmen in excavating for the piers of the Point Bridge, brought up an enormous tooth weighing about ten pounds. A second tooth was also unearthed but it was broken into pieces. This occurred two weeks ago. Since then the curiosity has been examined by Dr. E. A. Wood, who takes an interest in paleontology, and he called the attention of Prof. J. P. Lesley, the head of the State Geological Survey, to it, who turned it over to his Assistant, Mr. Franklin Platt, who soon satisfied himself that the bone was that of a huge mammoth (*elephas Americanus.*) This animal, in its natural state, reached an height of eighteen feet and a length of over twenty-five feet. Professor Jillson, of the High School, and others of the local scientific authorities, suppose the mammoth was swept along in the glacial era from Northwestern New York. This theory is borne out by the fact that the teeth were found in the alluvium of the river bed, about eighteen feet below the bottom. The remains of another mammoth were found in Otisville, New York, two years ago. Dr. Woods, we may also mention, has written to Prof. Joseph Leidy, in Philadelphia, the President of the American Academy of Natural Sciences, and this gentleman has authorized the owners of the sand boat, Messrs. Kelley & Co., to try and recover the rest of the skeleton.

····The Steubenville *Herald* completed its sixty-ninth year on Thursday, and took occasion to refer briefly to its past history and its present and prospective status: "During the long years of its existence it has lived through and looked upon some of the most stirring national vicissitudes known to history; has grown up and developed with our city from the years when it was but a village, and in point of olden time and stable dignity is perhaps the most marked institution in our city, and of wider public recognition. Since the date when the first issue of its sheets were given to the people, thousands upon thousands of other journals have sunk beneath the tide of time, and millions upon millions of dollars have been wasted away from the grasp of their bankrupt owners—journals too far more pretentious in their origin and character than the *Herald*, whose basis has always been that of *actual hard work done*, not that of empty but glittering assurances of work *promised*. As an illustration of this we might quote from the statistics of Messrs. Rowell & Co. to show that, during the past year alone, one thousand newspaper enterprises have failed, involving a loss to those who had in various ways been connected with them of eight millions of dollars." The *Herald* is a good newspaper, sound Republican in principle, and we congratulate the enterprising proprietor on its success.

AN ELOPEMENT.

A Sensation Created by a Former Resident of Johnstown.

The Altoona and Johnstown people are considerably excited over an elopement story, which the Altoona *Mirror* tells in this way: On Thursday last Conductor Beckwith, of the Pennsylvania Railroad, received at Altoona a letter which was mailed at Washington the day previous, in which the writer stated that a young lady left that city on the 17th of June, intending to visit her parents, who reside near Johnstown, Pa., but it was feared that she fell in with a man named Christe, who hails from Evansville, Wisconsin, and it is thought they met at Baltimore. A description of the gentleman and lady follows, and not only the features, but even the dress of the latter is described very minutely. She had purchased a ticket to Pittsburgh, and the writer of this letter was anxious to know if she had gone through to that city. This was signed by H. W. Jackson, Q. M. General's Office, Washington, D. C.

The name attached to this letter recalls the fact that one H. W. Jackson was a Captain and Provost Marshal during the war, and was located with a company of invalid soldiers at Wilmore for some time. The *Mirror* learns that a beautiful girl only about sixteen years of age, daughter of a most respectable family in Summerhill Township, became warmly attached to Jackson, and they finally departed together. If there is anything in the affair it would seem plausible that the lady who left Washington the other day, and who is so anxiously wanted by the writer of the letter referred to, is the identical one who departed from her home without the knowledge of her parents several years ago. When the gentleman who is so anxious to learn her whereabouts came on to Altoona he was very reticent in relation to his antecedents, and even withheld his name from the officer there, to whom he offered $50 for information leading to her recovery. Doubtless some person residing at Wilmore may remember the circumstances of the elopement of this lady with a man Jackson, and could throw some additional light on the matter.

THE OTHER SIDE.

Since the above was in type the *Mirror* has received some fresh information from Mr. Jackson, who called at the office. It says: Mr. Jackson is a middle-aged gentleman, of pleasant address, and unassuming manner. He seems greatly troubled about the affair which brought him here, and says that he has hopes that his wife has not eloped at all; that she may have possibly gone further west, to visit some relatives who reside there. This he hopes is the case, and will continue so to hope until he is convinced of the contrary. He says that although there was a rumor at the time of their marriage to the effect that they had eloped together, still those who have taken the trouble to inquire know well that such was not the case; that they visited the home of his wife's parents five days after their marriage and have continued their visits yearly ever since; that the most intimate relations exist between the two families, as the residents in the vicinity of the parents' home can testify. We take pleasure in setting Mr. Jackson right upon the record, and trust that his wife may return to him fully vindicated from the charges and suspicions now attached to her. Mr. Jackson says that the reason that he did not give the lady's name in the letter which we published was, that it being so near her home it was desirable to keep the matter as quiet as possible, so that, should she return with her name unsullied, she would not feel a delicacy in again visiting her home. The grieved husband left for Washington City on the Atlantic express last evening, fully determined to spend the last dollar he has or will ever earn to ascertain the whereabouts of his wife.

IN MEMORIAM.

Proposed Tablet to the Memory of the Late John Kelly.

A meeting will be held this evening, at the residence of Dr. J. D. White, No. 32 Federal street, Allegheny, by the pupils of the late John Kelly, for the purpose of taking steps toward the placing of a tablet in the new First ward school house as a mark of respect and esteem for the memory of their old tutor. Mr. Kelly was the first Principal of the First ward school, and his pupils comprised a very large number of men who are now prominently identified with the mercantile, manufacturing and other interests, as well as the professions, of Allegheny county. Mr. Kelly died a number of years ago, but those who received the benefit of his instruction, and knew him as a thorough educator and scholar and polished gentleman, have never ceased to revere his memory. Mr. E. M. Butz has drawn a neat design for the proposed tablet and it will be submitted to-night for such alterations and amendments as may be suggested. The Board of School Directors of the First ward have signified their willingness to allow it to be placed in the building under their charge, and as soon as the design has been perfected it will be promptly pushed to completion.

RESOLUTIONS.

Resolved, That our heartfelt thanks are due and tendered to the brethren and sisters of our churches in Allegheny City, Pittsburgh and vicinity, and to our Christian friends of other churches, and to the public generally for their hospitality mansfested towards the members of this Conference during its session now closing, and we pray that for all their kindnesses, God may bless them a thousand fold.

Resolved, That our thanks are tendered to the Trustees and officers of Mission church, Allegheny city, for the convenience afforded for our conference.

Resolved, That to our presiding Bishop, Rev. J. J. Moore, our best thanks are due for his uniform courtesy and impartial action as our presiding officer;—and in this last conference to be held in this District, prior to the general conference of 1876, we would place on record the expression of our high esteem and love, towards our presiding Bishop; our gratitude to God that our intimate relationship has for four years past, existed, and existed so harmoniously; and we shall follow him with our fervent prayers that his life may long be spared to bless this church and to honor this land and the world.

Resolved, That we recognize the debt of obligation under which our Church rests for the persistent, arduous labors of the Senior Bishop of our Connection, Rev. J. J. Clinton, who has lent us his presence during our present sessions. We express our gratitude that his life has been spared during all these years—our gratification that we have had during these sessions his wisdom and experience to assist us—and pray for him long life and God's best blessings.

The "Steck" Piano Forte

is gaining rapidly in popularity on merit, without the elaborate use of printers ink, as will be seen from the following tes'imonials sent him *unsolicited*, each one of whom is an eminent artist, whose veracity none will attempt to refute.

FROM ARTISTS RESIDENT IN NEW YORK AND BROOKLYN.

MESSRS. GEORGE STECK & CO.—Gentlemen: — We have carefully tested your PIANOS, both GRAND and SQUARE, and being always ready to appreciate talent and merit, it affords us great pleasure to congratulate you upon the success you have achieved in advancing your instruments to the state of excellence they have reached. We find in them all qualities combined which constitute a THOROUGHLY PERFECT PIANO and which make it a pleasant task to play on an instrument. There can be no doubt that they certainly rank among the very best Pianos manufactured. The manner in which by your late invention the agraffes are introduced, in connection with a plate of bell-metal, is especially calculated to make the quality and strength of the tone of your Pianos admirable. We cheerfully commend them to the public as most excellent and first class instruments.

A Valuable Book.

A Dictionary of Religious Knowledge for Popular and Professional Use; Comprising full information on Biblical, Theological, and Ecclesiastical Subjects; Several Hundred Maps and Illustrations. Edited by Rev. Lyman Abbott, assisted by Rev. J. T. Conant. Pp. 1,074. Published by Harper Bros., New York.

This volume has been prepared with especial reference to the needs of that large class of folks who want the most information in the smallest possible space, and the fewest words, without being burdened with technical terms. The book admirably answers this purpose. It comprises a biblical, theological and historical work, and in each department gives the results of the most careful investigation and the ripest scholarship. Sectarian subjects are treated of candidly and explicitly, without a tinge of partiality. It states facts, and leaves conclusions with the reader. There is no important subject in the range of religious inquiry that is not mentioned and clearly elucidated. Its classification is admirable. It treats subjects freshly and tersely. Its information is exact and exhaustive of the salient features on every subject. It fills a place occupied by no other Bible dictionary, and would be a valuable addition to the library of the teacher, even though all the others were there. It is profusely illustrated with maps and fine engravings; printed on good paper and in clear type, and is substantially bound. Mr. Lemuel Ackley, of No. 26 Carroll street, Allegheny, is the sole agent for its sale in Allegheny county, and we bespeak for him the most considerate attention from all teachers and others engaged in religious work, who would secure an invaluable aid to help them in their labors

Stolen Goods Identified.

On Tuesday night a man who gave his name as William Lyle, was arrested while going out Penn avenue with a bundle of goods under his arms. He had a companion who also had a little booty in his possession, but who escaped at that time. Yesterday the police captured one Maloy, who has been identified as Lyle's partner. The bundles which the men had contained four silk dresses stolen from the residence of Dr. Dickson, on Penn avenue near Ninth street, on Tuesday night. The dresses belonged to a young lady who had been visiting Dr. Dickson's family, and as she is now absent from the city, an information will not be made against the parties until her return.

NATION TRUST COMPANY.

The Decision of the Court on the Petition Filed on Tuesday.

In our issue of Monday morning, mention was made of a petition which was to be filed the day following in the United States District Court, by John Barton, Esq., on the part of the execution creditors of the late firm, asking that a warrant of arrest might issue against those members who were accused of making fraudulent transfers of their property; also, that the United States Marshal might be appointed provisional assignee to take charge of the estate. The case was argued on Tuesday, at the conclusion of which the Court took the papers and reserved its decision. Yesterday morning Judge McCandless rendered the following decision:

In the matter of the Nation Trust Company, in bankruptcy: Answer, petition and motion of Christina Cramer, Mary Ledder et al., to quash proceedings in bankruptcy.

As the current business of the Court occupies my attention every day, I have no time, before proceeding to Erie on Monday next, to hold the Court in that city, to elaborate an opinion in this important case. I can only now state the results at which I have arrived. I have given to the present proceedings all the consideration which the gravity of the subject and this application demands. I could not do otherwise, with the interests of so large a number of persons and nearly a million dollars involved. I entertain no doubt as the jurisdiction of the Court in this case in bankruptcy, and it is my duty to see that the assets of this firm are properly protected, and eventually distributed among its creditors, according to law.

The decision of the Court is that the motion to quash be overruled; that the prayer of the petitioners, asking that the Marshal be directed to take possession, provisionally, of the property and assets of the debtors, and safely keep the same until the further order of this Court, and that warrants of arrest issued against the debtorss be refused.

Motion overruled, and answer and petition dismissed. W. McCANDLESS,
United States District Judge.

A Double Danger Averted.

The inhabitant of a malarious region is threatened by a double danger. He is not only compelled to breathe miasma, but to swallow it, since it infects not only the atmosphere, but the water. The aerial poison threatens his system through the lungs and pores, the liquid through the stomach. Against this double peril there is but one protection, and that is to invigorate the entire body through the digestive and secretive organs. Ordinary tonics usually fail to accomplish this—Hostetter's Stomach Bitters never. In the tropics, where the diseases originated by malaria are of a far more malignant type than those originated by the same cause in the temperate zone, it enjoys immense and constantly increasing sales, and there is no portion of this continent where it is not the reigning specific for miasmatic fevers and disorders of the stomach, liver and bowels, proceeding from malaria and other causes.
